

International Scientific Symposium on Water Resources Management and Comprehensive Reclamation of River Basins

Nanjing, China

17-19 November 2017

Organized by:

Hohai University

Nanjing Institute of Geography and Limnology, Chinese Academy of Sciences

Chang'an University

Operated by:

Hohai University

College of Hydrology and Water Resources

State Key Laboratory of Hydrology-Water resources and Hydraulic Engineering

National Engineering Research Center of Water Resources Efficient Utilization and Engineering Safety

National Cooperative Innovation Center for Water Safety & Hydro Science

Editorial Office of *Water Science and Engineering*

Chinese Academy of Sciences

Nanjing Institute of Geography and Limnology
Key Laboratory of Watershed Geography

Co-organized by:

Beijing Normal University

Tibet University

Served by:

Beijing Walter Consulting Co., Ltd

Scientific Committee

Counselors: (Listed in no particular order)

Congbin Fu	Nanjing University and Hohai University, China
Changming Liu	Institute of Geographic Sciences and Natural Resources Research, CAS, China
Yaoru Lu	China University of Mining and Technology and Hohai University, China
Yuqun Xue	Nanjing University, China
Jiyang Wang	Institute of Geology and Geophysics, CAS, China
Edward A. Sudicky	University of Waterloo, Canada and Hohai University, China

Chairs: (Listed in no particular order)

Hao Wang	China Institute of Water Resources and Hydropower Research, China
Jiayun Zhang	Nanjing Hydraulic Research Institute, China
Jun Xia	Wuhan University, China
Chongyu Xu	University of Oslo, Norway

Members: (Listed in no particular order)

Emmanouil N. Anagnostou	University of Connecticut, USA
Andr ́as B ́ardoss	Universit ́at Stuttgart, Germany
Amir Aghakouchak	University of California, Irvine, USA
Yang Cai	Wang Information Center, Ministry of Water Resources, and Hohai University, China
Xi Chen	Hohai University, China
Xi Chen	Xinjiang Institute of Ecology and Geography, CAS, China
Xiaohong Chen	Sun Yat-sen University, China
Yaning Chen	Xinjiang Institute of Ecology and Geography, CAS, China
Yangbo Chen	Sun Yat-sen University, China
Yongqin Chen	Chinese University of Hong Kong, China
Chuntian Cheng	Dalian University of Technology, China
Yongjian Ding	Northwest Institute of Eco-Environment and Resources, CAS, China
Zengchuan Dong	Hohai University, China
Dara Entekhabi	Massachusetts Institute of Technology, USA
Qi Feng	Northwest Institute of Eco-Environment and Resources, CAS, China
Yuanze Gu	Bureau of Hydrology, Yellow River Conservancy Commission of the Ministry of Water Resources

Anthony Jakeman	Australian National University, Australia
Naota Hanasaki	National Institute for Environmental Studies, Japan
Daming He	Yunnan University, China
Guohe Huang	North China Electric Power University, China
Qiang Huang	Xi'an University of Technology, China
John Kimball	University of Montana, USA
Ling Li	University of Queensland, Australia
Yongping Li	Beijing Normal University, China
Chuan Liang	Sichuan University, China
Jiufu Liu	Nanjing Hydraulic Research Institute, China
Tingxi Liu	Inner Mongolia Agricultural University, China
Van-Thanh-Van Nguyen	McGill University, Canada
Boqiang Qin	Nanjing Institute of Geography and Limnology, CAS, China
Steve Running	University of Montana, USA
Liliang Ren	Hohai University, China
S. Geoffrey Schladow	University of California, Davis, USA
Frank W. Schwartz	Ohio State University, USA
Quanxi Shao	CSIRO, Australia
Jiancheng Shi	Institute of Remote Sensing and Digital Earth, CAS, China
Kaoru Takara	Kyoto University, Japan
Xin Tan	Tibet University, China
Qihong Tang	Institute of Geographic Sciences and Natural Resources Research, CAS, China
Daoxi Wang	Yellow River Institute of Hydraulic Research, China
Guoqing Wang	Nanjing Hydraulic Research Institute, China
Jianhua Wang	China Institute of Water Resources and Hydropower Research, China
Jun Wang	Bureau of Hydrology, Changjiang Water Resources Commission of the Ministry of Water Resources, China
Wen Wang	Hohai University, China
Wenke Wang	Chang'an University, China
Yintang Wang	Nanjing Hydraulic Research Institute, China
Jichun Wu	Nanjing University, China
Ping Xie	Wuhan University, China
Lihua Xiong	Wuhan University, China
Zongxue Xu	Beijing Normal University, China

Denghua Yan	China Institute of Water Resources and Hydropower Research, China
Dawen Yang	Tsinghua University, China
Zhongbo Yu	Hohai University, China
Qi Zhang	Nanjing Institute of Geography and Limnology, CAS, China
Qiang Zhang	Beijing Normal University, Key Laboratory of Environmental Change and Natural Disaster, Ministry of Education
Yunlin Zhang	Nanjing Institute of Geography and Limnology, CAS, China
Wenzhi Zhao	Northwest Institute of Eco-Environment and Resources, CAS, China
Jianzhong Zhou	Huazhong University of Science and Technology, China
Weibo Zhou	Chang'an University, China
Qiting Zuo	Zhengzhou University, China

Organizing Committee

Chairs:	Hui Xu	President of Hohai University
	Guishan Yang	President of Nanjing Branch of Chinese Academy of Sciences, China
	Ji Shen	Director of Nanjing Institute of Geography and Limnology, CAS
	Feng Chen	President of Chang'an University
	Fanghua Hao	Vice President of Beijing Normal University
Members:	Zhongbo Yu	Hohai University State Key Laboratory of Hydrology-Water Resources and Hydraulic Engineering
	Yuanfang Chen	Hohai University, College of Hydrology and Water Resources
	Bohai Ji	Hohai University, Science and Technology Office
	Tongchun Li	Hohai University, National Engineering Research Center of Water Resources Efficient Utilization and Engineering Safety
	Xuhua Ren	Hohai University, National Cooperative Innovation Center for Water Safety & Hydro Science
	Ye Shi	Hohai University, Editorial Office of <i>Water Science and Engineering</i>
	Donghui Cheng	Chang'an University, School of Environmental Science and Engineering

Secretariat

Secretaries-	Tao Yang	Hohai University, College of Hydrology and Water Resources
General:	Bin He	Nanjing Institute of Geography and Limnology, CAS
	Hui Qian	Chang'an University, School of Environmental Science and Engineering
Deputy	Ke Zhang	Hohai University, College of Hydrology and Water Resources
Secretaries-	Weiguang Wang	Hohai University, College of Hydrology and Water Resources
General:	Pingping Luo	Chang'an University, School of Environmental Science and Engineering
Members:	Peng Shi	Hohai University, College of Hydrology and Water Resources
	Fei Yuan	Hohai University, College of Hydrology and Water Resources
	Li Ren	Hohai University, College of Hydrology and Water Resources
	Qin Ju	Hohai University, College of Hydrology and Water Resources
	Chuanguo Yang	Hohai University, College of Hydrology and Water Resources
	Cheng Yao	Hohai University, College of Hydrology and Water Resources
	Qiaoling Li	Hohai University, College of Hydrology and Water Resources
	Huanghe Gu	Hohai University, College of Hydrology and Water Resources
	Bin Xu	Hohai University, College of Hydrology and Water Resources
	Yingchun Huang	Hohai University, College of Hydrology and Water Resources
	Qiuling Zhang	Hohai University, College of Hydrology and Water Resources
	Qing Liu	Hohai University, College of Hydrology and Water Resources
	Weining Yuan	Chang'an University, School of Environmental Science and Engineering
	Hongbo Zhang	Chang'an University, School of Environmental Science and Engineering
	Anyan Hu	Chang'an University, School of Environmental Science and Engineering
	Xiaohong Zhao	Chang'an University, School of Environmental Science and Engineering
	YinkeYang	Chang'an University, School of Environmental Science and Engineering
	AixiaChen	Chang'an University, School of Environmental Science and Engineering
	Xiaoying Qiao	Chang'an University, School of Environmental Science and Engineering
	Hongzhang Deng	Chang'an University, School of Environmental Science and Engineering

Meimei Zhou	Chang'an University, School of Environmental Science and Engineering
Jiqiang Lyu	Chang'an University, School of Environmental Science and Engineering
Weili Duan	Nanjing Institute of Geography and Limnology, CAS
Zhiming Zhang	Nanjing Institute of Geography and Limnology, CAS
Kaihua Liao	Nanjing Institute of Geography and Limnology, CAS
Huawu Wu	Nanjing Institute of Geography and Limnology, CAS
Wenjun Chen	Nanjing Institute of Geography and Limnology, CAS
Lei Tan	Nanjing Institute of Geography and Limnology, CAS
Xiangnan Liu	Nanjing Institute of Geography and Limnology, CAS
Huawu Wu	Nanjing Institute of Geography and Limnology, CAS
Shixia An	General Manager, Beijing Walter Consulting Co., Ltd

Background:

Water-related issues are one of the major problems facing the world in the 21st century. With recent global environmental changes, increased human activities, and rapid socioeconomic development, the world has been facing new challenges on water security and water resources management. Pressing issues related to natural hazards, water resources, water environment, and aquatic ecosystems have been emerging. Climate change and urbanization have caused occurrence of abrupt hydrological extreme events more uncertain, which makes prediction and prevention of floods and droughts more challenging. Water resources availability and balance between water supply and water demand at regional to country levels have been substantially altered under global climate change, which leads to additional water security risks. Highly intensive human activities have also largely altered fluvial geomorphological processes and fluvial ecosystems, which causes more complicated aquatic and ecological problems. Urbanization and large-scale resources exploitation have deteriorated water quality of numerous water bodies, leading to severe water environment issues. Coupling and interaction of the above issues make problems more complicated. A holistic, systematic, and comprehensive review and investigation of these problems is necessary for conquering these challenges. Developing new methods and technologies for water resources management, water pollution control, and reclamation of river basins are also imperative. Studies in these areas are critical for securing water security and sustainable development for the world.

The symposium aims to promote the sharing and exchange of the state-of-the-art scientific knowledge, technologies, methods and policy approaches to watershed water resources management and comprehensive reclamation of river basins. Its overarching goal is to enhance scientific capacities of countries towards high efficient water resources utilization and management and sustainable development, and to advance knowledge and technologies for reclamation of river basins.

Topics:

1. Water observation and information technologies and methods

- Radar and Satellite quantitative precipitation estimation techniques
- Remote sensing of evapotranspiration
- Remote sensing of soil moisture
- Remote sensing of hydrological process
- Water survey tools and techniques
- Recent progress of hydroinformatics
- Automated hydrological information monitoring technology and equipment
- Hydrological modeling

2. Watershed sustainability and water resources

- Water-related disasters

- Flood inundation and flood prevention management
- Water quality monitoring and assessment
- Climate change and water cycle change
- Sustainability of water environment
- Changes and mechanisms of basin-level hydrological cycles under changing environment
- Uncertainty of global and regional water resources
- Long-term forecasting techniques of hydrology and water resources
- Methods and techniques of efficient water resources utilization
- Theories and methods of water resources management under changing environment

3. Urban water environment and aquatic ecology

- Pollution control for water resource
- Ecohydrology and limnology
- Changes of watershed aquatic ecology
- Urbanization-introduced water problems
- Theories and methods for sponge city construction
- Monitoring of water environment and aquatic ecology
- Method of Municipal Wastewater Treatment Based on Nano and Biotechnology

4. Comprehensive reclamation of river basins and innovative management

- Water Informatics
- Water resource management and policy
- New technologies for sustainable development
- Watershed wastewater and eutrophication treatment
- River and watercourse repair
- Planning of watershed development

Abstract Submission:

All abstracts including title, author list, affiliations, summary of your presentation, and contact information should be emailed to conference_hhu@hotmail.com.

Registration and Fees:

To register this meeting, please fill in Annex I and email it to conference_hhu@hotmail.com.
Registration fees are listed below:

Important Dates:

Call for abstracts: 12 August 2017
Deadline for abstract submission: 15 October 2017
Beginning of registration: 1 September 2017
End of registration: 15 October 2017
On-site registration: 17-18 November 2017 at the International Conference Center & Hotel of Hohai University

Conference Schedule:

On-site Registration: 17-18 November 2017
Opening Ceremony, Plenary Session and Keynote Speeches: 18 November 2017
Parallel Sessions and Closing Remarks: 19 November 2017

Website:

Annex I: Registration Form

Name:		Gender:	Male Female
Passport or Chinese Citizen ID #:		Nationality:	
Email:		Degree:	
Affiliation:		Occupation:	
Phone #:		Hotel Preference:	Self Booking Queen Bed Twin Beds
Abstract Title:			

- Please indicate whether you need us to book a hotel room for you and your preference for bed size. We can only book rooms from the International Conference Center & Hotel of Hohai University. Its room price is CNY 380/room/night (room with queen bed or twin beds, breakfast included).
- There are other hotels available but you have to book your rooms by yourself:
Jindun Hotel (No.21 Hujuguan Road, Nanjing 210000, China)
Ruidi Hotel (223 Guangzhou Road, Nanjing 210029, China)
Xiyuan Hotel (No.65 Beijing West Road, Nanjing 210013, China)
Nanjing Grand Hotel (208 Guangzhou Road, Nanjing 210029, China)

To register this meeting, please fill in this form and email it to conference_hhu@hotmail.com.
